

Cultiplant

Trace Elements

IRON PRO 4.0

Description

Brand Name	Cultiplant IRON PRO
Chemical Name	Acetic acid, oxo-, sodium salt, reaction products with ethylenediamine and phenol, Iron sodium salts
Appearance	Dark red-black microgranules

Chemical Composition

Iron (Fe), Total	6.0%
Iron (Fe), o-o EDDHA Chelated	4.0%

Physical Properties

Density	0.45 – 0.65 kg/L
pH	7.5 - 9.5 (in 1% water solution)
Solubility	theoretical: 120 g/L practical: 60g/L
