CULTIPLANT K-300 Liquid

Description

Brand Name	CULTIPLANT K-300 Liquid
Chemical name	Liquid K fertilizer complexed by polycarboxylic acids (Seaweed Extract)
Appearance	Liquid, lightly brown

Chemical Composition

Potassium Oxide (K ₂ O)	21.4% w/w 30.0% w/v
------------------------------------	-----------------------

Physical Properties

Density	1.400 g / l
pH	7.0 (pure product) 7.0 - 7.5 (at 1% water solution)
Crystalization temperature	0 °C
